### Please Note:

It is customary to pay for professional services when rendered. However, if you have a medical problem then we will bill your insurance on your behalf. You will be responsible for your applicable co-pays. A refraction is a measurement of the lens power necessary to prescribe glasses or other corrective lenses. Most medical insurance plans, including Medicare, do not cover routine refractions or routine eye exams (when no medical eye problem is known or suspected). Medicare, and most other insurance plans, insists that we charge separately for that portion of the examination, since it is not a covered service. You will receive an explanation of benefits from your insurance itemizing your responsibilities. You will be responsible for any co-payments, co-insurance, deductibles or non-covered services as determined by your insurance company.

If you have a separate plan that covers routine or annual eye examinations and/or glasses, please let us know. Your vision plan may assist you with your eye care needs that are not covered by your medical plan. We will bill your vision plan as above\*\*

We are a Medicare participating practice. If you are a Medicare Beneficiary, we will file a claim for you. You will be responsible for the annual \$162.50 deductible and the 20% co-payment.

In accordance with our contract with your insurance provider, we are responsible for collecting, and you are responsible for paying, co-payments at the time of service. Seville Eye Center, L.L.C. requires payment in full prior to the product being received. Seville Eye Center, L.L.C. requires payment in full prior to the product being received.
